CISSP-certified security professional with nearly 5 years in enterprise firewall compliance, risk governance, and assessments across 4,000+ devices. Currently lead an organization-wide program spanning AlgoSec NSPM, automation, executive reporting, remediation governance, technical QA, and ISO 27001/PCI DSS audits.

Experience

Analyst - Information Security (Lead) Jan 2026 — Present
Infosys Ltd. *Mumbai*

- **Own the enterprise firewall compliance and risk governance program** across Infosys and its subsidiaries, covering policy standards, control assessments, remediation, exception management, executive reporting, and audit support.
- Led **AlgoSec NSPM** from evaluation and POC through implementation across **~900 firewalls**.
- Integrated Palo Alto (via Strata Cloud Manager), Check Point, Cisco Firepower, routers, switches, and IPS into AlgoSec; built customized **baseline and risk profiles** for each device type and defined **FireFlow workflows** for change management, rule review, recertification, and cleanup.
- Present compliance posture, risk trends, remediation status, and risk-acceptance decisions to the **CISO** and senior IT leadership through centralized **Elastic dashboards**.
- Drive cross-functional remediation and formal risk acceptance with infrastructure teams, IT stakeholders, and asset owners for firewall, configuration, and segmentation risks.
- Lead technical review and quality assurance for assessments performed by **4 junior engineers**, providing feedback and coordinating remediation through closure.
- Automated manual and semi-automated compliance controls, reducing configuration effort by **40%**, reporting cycles from **2.5 days to 2-3 hours**, and remediation turnaround from **3-4 weeks to 7-10 days**.
- Lead **ISO 27001, PCI DSS, SOC 1/2, and client audit support**; represented **configuration management** for the Information Security Group (ISG) in external audits by KPMG and EY, walking auditors through process, evidence, and remediation closure, with **zero major findings in owned scope**.

Information Security Engineer / Senior Information Security Engineer Oct 2021 — Dec 2025
Infosys Ltd. *Mumbai*

- Assessed **4,000+ network devices** against security baselines, identified critical misconfigurations, and drove remediation through closure.
- Developed reusable hardening standards for Palo Alto, Check Point, Mellanox, and Cumulus.
- Optimized **Skybox** workflows and reporting, establishing the automation foundation for enterprise security compliance.

Skills

- **Core**: Security Governance, Compliance Program Ownership, Firewall Policy Governance, Risk Acceptance, Remediation Governance, Executive Reporting, Network Security Assessments
- **NSPM & Reporting**: Skybox, AlgoSec, Elastic Dashboards
- **Firewalls & Network**: Palo Alto, Check Point (on-prem & AWS/Azure/GCP), Cisco ASA/FTD/Firepower/Nexus/IOS/NX-OS, Mellanox, Cumulus
- **Standards**: CIS Benchmarks, PCI DSS, ISO 27001, SOC 1/2
- **Supporting Tools**: ServiceNow, RSA Archer, CyberArk (PAM), Cortex XSIAM (SIEM)

Certifications

- **Certified Information Systems Security Professional (CISSP)** – ISC², Apr 2026 Verify
- Skybox Security Certified Vulnerability Control and Assurance Expert – Skybox Security Verify
- Infosys Certified Cyber Security Manager – Infosys Verify
- Infosys Certified Associate Cyber Security Consulting Advisory – Infosys Verify
- Infosys Certified Infra VM Specialist – Infosys Verify
- AI Security & Ethics (Pearson) – O'Reilly Media, May 2026 Verify

Achievements & Recognitions

- Winner of the Infosys organization-wide iHack Capture the Flag (CTF) 2025, after placing runner-up in 2023 and 5th overall in 2022.
- Presented "Firewall Chaos: Automated Policy Management" at ISG Talks on firewall-policy automation.
- Received the Infosys Insta Award for network security assessment work on a key subsidiary account.

Education

Sandip University – B.Tech in Cloud Technology and Information Security – 8.7/10 Sep 2021
